1 FUNCTIONALITY

1.1 FUNCTIONAL IMPACT

The functional impact is to fix the four issues below.

- Prompt user when a communication issue has been detected when contacting MBS.

- Consolidate additional quantities of ISBNs within an existing purchase order when they are already present.

- Updated the Rework Until and Ship date logic.

- Communication issues can cause the Want List Send screen to be stuck in a warning message loop.

1.2 FUNCTIONAL CHANGES

A warning message has been added for when there is an FTP communication issue.

1.3 FUNCTIONAL ENHANCEMENTS

- Consolidate additional quantities of ISBNs within an existing purchase order when they are already present.

- The Rework Until and Ship date logic has been revamped to fix current inconsistencies.

- The warning message lockup during a communication failure has been fixed.

1.4 NEW FUNCTIONS

A warning message has been added for when there is a FTP communication issue. The warning message is "Authorization failed"
