2.2 FUNCTIONAL ENHANCEMENTS

- Problem:** Non-Latin characters in ebooks were causing display problems in VR Text Maintenance (eBook tab)
Solution: Substitutes Latin for non-Latin characters in ebooks in VR

Example: The letter “Á” will now display as “A”.

Note: There are 62 replacements, including characters with: grave, acute, cedilla, circumflex, diaeresis, and tilde. “æ” now displays as “ae”.

2.3 NEW FUNCTIONS

- None

Important: This update requires a brief outage to install, and may require back-coding, if applicable.

3 *FREQUENTLY ASKED QUESTIONS*

4 VERSION NUMBER EXPLANATION

RATEX products follow this version numbering convention: *Major* version, *Interim* version, *Hot Fix* change, each separated by a period. For example, the second release of version one is numbered like this:

1 (Major) . 4 (Interim) . 0 (Hot Fix)

What each number represents is illustrated in the table below.

Table 2 RATEX Version Numbers

Release Type	Major	Interim	Hot Fix
Frequency	12-18 Months	3 Months	As needed
Contents	Major new features	Feature Enhancements	Program fixes without feature change

Note: Security changes are made in Hot Fix releases, and all Major and Interim releases include these security updates.

Note: RATEX does not use wildcard versioning numbers. All version updates are inclusive of previous version updates, including previous security-impacting changes.
